" I started my first job in Sep 1997 in Nanjing China as an inbound tour operator specialising in North America and Australian market. After 10 years handling China tours to down under, I decided it was time to move on and immigrate to the beautiful country of Australia myself and start my family and business here. In the first 3 years, I was working for a VFR wholesale agency as the marketing specialist and then registered MW Tours in Apr 2010. I've never looked back and now have 15 staff helping me take Australians to my country of China, the rest of Asia, Africa, the Subcontinent & Beyond.

MW Tours has grown into a true Asian & Sub-continent specialist wholesaler since it established in Apr 2010, we started selling China as the only destination specialising in Yangtze River Cruises. Later in 2010, we developed our Indochina, Japan, Korea products. In early 2011, we started selling Taiwan as a more popular destination and in 2015 we released Philippines, India, Sri Lanka & Nepal. We launched Africa in 2017 and had a great success. We are most well-known for our annual Japan Cherry Blossom group tour and our Niche product as being the most competitive in the marketplace. "
